# LightwaveRF plc

(AIM: LWRF)

## Works with Nest

LightwaveRF plc (“LightwaveRF” or the “Company”), is the Internet of Things (“IoT”) provider of the LightwaveRF platform and connected devices enabling domestic and commercial users to remotely monitor and control light, heat, power and security by smartphone, tablet or PC. The Company is pleased to announce the first phase of its Works with Nest integration.

Following development of the LightwaveRF platform, the Company is now interfacing with other third party IoT products. This approach has been reinforced by the recent launch of several IFTTT channels.

LightwaveRF now works with Nest to synchronize Home and Away settings to the LightwaveRF Android app. Users who control Home and Away from their LightwaveRF Android app will be able to automatically switch Nest Home and Away status with the LightwaveRF system.

Commenting Mike Lord, CEO of LightwaveRF, said, “We are excited about the additional flexibility this connection provides to Nest and LightwaveRF customers”.
